Competition Guidelines and Points Value System

1. The guidelines and point values in this enclosure shall be utilized by the Command Statistician to track and determine award recipients on the Station, Division, and Program level.
2. In order for a Station or Division to "make goal" in Enlisted Programs on a monthly, quarterly, and annual basis-100% of New Contract Objective (NCO), and 100% of sub-goals (i.e. NF, NSO/NSW, excluding 11S) must be achieved. Substantial deduction is taken into account for in-month losses or attrition, which also affects shipping percentage.
3. In order for a Division to "make goal" in Officer Programs, different criteria will be utilized on a monthly, quarterly, and annual basis. On a monthly basis, only 100% of application goal must be achieved. On a quarterly basis, a combined percentage of application goal and accession goal will be utilized, with the weighting for competition points set at 75% application goal and 25% accession goal. On an annual basis, a combined percentage of application goal and accession goal will be utilized, with the weighting for competition points set at 25% application goal and 75% accession goal.
4. The Close of Business and competition point system shall rank each Division by combined Officer and Enlisted Recruiting mission with the following weighting: 50% Enlisted mission attainment + 50% Officer mission attainment, as delineated by paragraphs 1 through 3.
